What is the Inclusion of disabled people through basketball?

Komotini— 13.03.2023 — Inclusion of disabled people through basketball is a Erasmus+ Sports project, KA210 ERASMUS-SPORT-2022-SSCP with project number: 101089467, is co-financed by the Erasmus+ programme of the European Regional Development Fund (ERDF) and it is a cooperation of one coordinator from Cyprus and three partners from Greece, Romania and Serbia. The group was composed of Active Cypriot Programs and European Learning into acceptance (Acpelia), the Asociatia Scout Society (Scout Society) from Romania, the Kosarkaski savez Grada Nisa (Kosarkaski Nisa) from Serbia and the Sports club for disabled athletes «Irodikos» from Greece.

Information about partners

Active Cypriot Programs and European Learning into acceptance (Acpelia)

- Main aim of Acpelia's organization is the rescue, preservation and transmission of cultural heritage, sustainability of the environment, discrimination, social and environmental entrepreneurship, social inclusion, elimination of discrimination and

racism and the grant to our members of the chance to involve in themes about Environment, Culture, Sports, Racism, Equality, Democracy and Discrimination. Cultural and Sports activities promote social inclusion, human rights and help in the limitation of the discrimination among the generations.

The Asociatia Scout Society (Scout Society)

- Scout Society's organization has the purpose to encourage volunteering and to contribute at the development of the local community especially in the process of youth education via non-formal education activities. The association began to develop its activity field, making projects with various themes(like sport, health, multiculturalism, tolerance towards others, discrimination, increasing employability, career orientation), but keeping the same purpose since its establishment - helping young people in their development and form as individuals involved in society, which preserve and share with others European values(unity, communication, tolerance, solidarity, respect, equality, communication, pluralism, peace, democracy, liberty).

The Sport Club for Disabled Athletes "IRODIKOS"

- The Sport Club for Disabled Athletes "IRODIKOS" has aim to cultivate all of the Paralympic sports and our goals are the development of sports for disabled people, the creation of accessible athletic facilities, the development and cooperation with similar association either domestically or abroad and lay emphasis on the importance of exercise and physical activity of disabled people in order to achieve both physical and mental health. Also, has organized a couple of international tournament called Thrace Wheelchair Basketball and the participants were national squads and it consists of several athletes with great experience.

City of Nis Basketball Association

- City of Nis Basketball Association has aimed to improve competencies in sports, healthy lifestyles, social inclusion, violence in marks, racism and human rights in sports and make an interdisciplinary approach to sports and social problems or social awareness issues. Their work embraces all the aspects needed to open new perspectives of tolerance and proactive societies .

The project was established with the aim of spreading the sport of wheelchair basketball, to connect disabled people and non-disabled people in the spirit of sportsmanship and to improve the mental health of the participants. Also, beyond developing the spirit of sportsmanship among them, bridged the gap between the countries of the European Union.

Project plan

This project has a duration of 18 months and specifically it starts 01.01.2023 and ends on 01.07.2024 at the latest. During the program, the meeting of the partners will take place in Komotini on 25 February 2023 and then the program cycle will be completed with the training and the final conference will aim at presenting and disseminating the project's final results.
