Kick-off meeting among the partners

Komotini— 20.03.2023 — The IncDisBas program (Inclusion of disabled people through basketball Erasmus+Sport) performed their first meeting in Greece and specifically in the association building of Irodikos in Komotini on 25th February and duration has two (2) days. The kick off meeting is an opportunity to know definition of the base elements for the project and increase understanding of the project so that work can begin as soon as possible.

Agenda of kick-off meeting

At the beginning of the meeting, all the participants made registration and each partner introduced themselves and their role in this project .Afterwards, they discussed the details of the proposal and the project implementation rules such as financial information, obligation of the partner and coordinator and the dissemination plan. They being presented activities by each partner and then since there were discussed about the timeline, they proceeded to sign the agreement. According to the schedule of the

program ,next actions is the LTT training in Greece with duration five (5) days and the final conference event in Cyprus , Romania ,Greece and Serbia with duration one (1) day. During the training, which the second step of program, partners will have mixed group basketball matches, where disabled people who use wheelchairs and non-disabled people who do not use wheelchairs. In this way, project aim to impove the teamwork among them and all of them will cooperate in the perspective of contributing to the enhancement of equal opportunities and education in and through sports, especially through wheelchair basketball.

Concluding the meeting, the date was determined for training is between 25 and 30 September which has a duration five (5) days and this training will take place at Greece, Komotini. The partners, until takes place the training, will work feverishly to create a website and social media content with purpose to promote the project, thus contributing increasingly to the spread of the basketball with wheelchairs.
